

# Coming to Grips with Learning

Simple interventions for swift outcomes

## Primitive Reflex Assessment Procedures and N.O.T. Corrections

Co-authors Shanagh Sangster & Bernard Carson

Identification of the major primitive reflexes and their implications for learning and living.

Hands-on testing procedures will be demonstrated & taught

DVDs and practical work to reinforce this information will include :

- Developmental stages in Infancy & Primitive Reflex responses
- Testing procedures and how to score results.

Kinesiology (N.O.T) corrections for the retained primitive reflexes will be taught.

**British Medical Journal – The Lancet, Feb 2000, cited a 12 month double blind study reporting significant gains using daily Retained Primitive Reflex exercises.**

**We believe that basic N.O.T corrections and a minimal number of our special protocols can achieve equivalent results within a few sessions.**

**This workshop includes our new discoveries in the last year.**

**Dates:** 15th, 16th & 17th October 2011

**Bookings/Enquiries:** Shanagh Sangster 02 9487 8957

**E-mail:** feelgreat@nma-oz.com

**Venue:** 21/75 Pacific Highway, Waitara. 2077

**Cost:** \$595 **Early bird** \$500 if booked & paid for in full by 15th September.

A deposit of \$100 is required by this date to ensure a place in the workshop  
(Repeats 1/2 full price plus cost of updated manual if required)

Course notes will be provided. It is recommended that participants have a copy of Sally Goddard's book "Reflexes, Learning & Behaviour" available from Equilibrium  
Morning and afternoon tea will be served.

This workshop is to be run in Wellington New Zealand from 22nd -24th August 2011  
Shanagh will be presenting a paper at the KANZ conference the weekend before the workshop.
